

## **Easter Seals Oklahoma**

### **Corporate Sponsorship Packages 2017**

With your generous corporate support we will be able to provide advanced curriculum programming in math, science, reading and technology in our classrooms. We will be able to ensure our playground equipment is safe, enhance our library, and provide new enrichment programs for our intergenerational programs by offering hands-on music and art activities, science, engineering, math and technology that will enhance our existing programs. Sponsors also provide us the opportunity to take our adults on educational and social trips outside of our facility, and the ability to provide quality training for parents and teachers in our community on the benefits of applied behavior analysis.
